TYLER HOOKS

SENIOR DESIGN TECHNOLOGIST

Email GitHub LinkedIn

Design technologist with 7+ years across software, UX, and design engineering, specializing where experience strategy meets reusable, developer-ready components. I've built component libraries adopted across hundreds of production projects, prototyped service experiences that shipped to 300+ stores, and led AI enablement for a design organization at H-E-B Digital. I turn ambiguous, multi-team problems into accessible, testable experiences and north-star stories that product, engineering, and leadership can align on.

01 — CORE SKILLS

Experience Strategy	Reusable Components	Inclusive Design (a11y)	Cross-Functional Leadership
Service Design Prototyping	Design Systems	Interaction Design	Workshops Workshops & Design Reviewsamp; Reviews
High-Fidelity Prototyping	AI-Assisted Prototyping	North-Star Concepts	Mentorship & Enablement

02 — TECHNICAL PROFICIENCIES

ADVANCED	JavaScript, TypeScript, React, Next.js, HTML, CSS/SASS, Figma, Figma Make, Git, and a11y (WCAG)
PROFICIENT	React Native, Node.js, REST & GraphQL APIs, Supabase, AWS, Jest, GitHub Copilot, Gemini Enterprise, RAG tooling, Confluence

03 — PROFESSIONAL EXPERIENCE

H-E-B DIGITAL

AUSTIN, TX

Senior Design Technologist [Month Year] – Present

Design technology lead on a lean, agile team turning emerging technologies into new design workflows and experiences.

- Prototyped the FLOR app, now used by H-E-B partners in 300+ stores; lead the FLOR Guided Task Management prototype, consolidating four inventory walks into one unified partner flow.
- Build high-fidelity prototypes in Figma, Figma Make, and code for initiatives such as Seamless Store, using RITE testing with AI prototyping to validate complete service experiences.
- Lead AI tool enablement for the design org (GitHub Copilot, Gemini Enterprise), run Enablement Labs, and built an AI Prototyping Doc Site and Instruction Builder with reusable patterns for designers.
- Leading a RAG tool that makes the design org's research repositories searchable as a reusable resource.
- Delivered a March Madness prototype with marketing in one sprint; present work to leadership and guilds and turn research into clear recommendations.

THE WALT DISNEY COMPANY

REMOTE

UX Engineer II Dec 2021 – Oct 2022

- Built and maintained a UX component library on the DMED design language in React and AWS, enabling a more modern, responsive, and accessible web architecture.
- Designed and developed high-fidelity prototypes for mobile-responsive enterprise web apps; built a React and Next.js dashboard for the CTO tracking metrics across 20+ products.
- Presented prototypes to stakeholders and partnered with leaders on product roadmaps tied to success metrics.

DELL TECHNOLOGIES

ROUND ROCK, TX

Software Engineer Aug 2019 – Dec 2021

- Built and managed a reusable UI component library used across hundreds of production projects in IT Services.
- Turned UX wireframes into high-fidelity prototypes and responsive, cross-platform components for the IT Services website.
- Mentored members of an IT Development Program and served on its subcommittee and global council.

04 — EDUCATION

B.S. Computer Science — Minor in Applied Mathematics 2019

Texas State University, San Marcos, TX
